MSCI EMU Climate Paris Aligned Filtered Index is an equity index based on the MSCI EMU index representative of the large and mid-cap stocks across developed market countries in the European Economic and Monetary Union (the "Parent Index"). The Index is designed to support investors seeking to reduce their exposure to transition and physical climate risks and who wish to pursue opportunities arising from the transition to a lower-carbon economy, while aligning with the Paris Agreement requirements. The Index incorporate the Task Force on Climate-Related Financial Disclosures (TCFD) recommendations and are designed to exceed the minimum standards of the EU Paris-Aligned Benchmark.
